

ENGINEERED SOLUTIONS
GROUP

Global supplier for Automation, Collaborative Robotics, Gear Generation, NVH Systems, Inspection, High Precision Tooling and Work Holding, Gear Chamfer and Deburr, and Turnkey Solutions.

COMAX

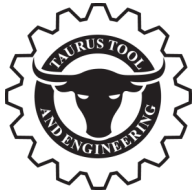

- **COMAX Industrial Automation** provides turn key design and build solutions
- Assembly, Machine-Tending, Packaging, Pack Out and palletizing
- Innovative application of collaborative robots to increase productivity
- Automated chamfering and deburring systems

INTRA

- **INTRA Measurement**—Global leader in precision manufacturing and measurement technology
- **INTRA AEROSPACE**—Prototype and production gear and spline components and assemblies for aerospace, military and commercial customers
- NVH Test Systems for gears

Toolink
Engineering, Inc.

- **Toolink Engineering, Inc.** - Precision products for gear and rotor manufacturing. Grinding, Honing, Hobbing, Hard Turning.
- **Konig, mtm** - High precision work holding devices - Hydraulic, Mechanical, Hybrid
- **CMT** - Precision pitchline chucks for gears
- **RMI Lasers** - Laser marking systems
- **S&T Dynamics** - CNC Gear hobbing and shaping equipment

- **Taurus Tool & Engineering**-Design and build prototype parts, tools, dies and special machines
- Gear chamfering and deburring systems
- Assembly line equipment and lift tools.
- AS9100 and ISO 9001 Certifications

- **FHUSA-TSA** incorporates state-of-the-art technology in manufacturing gear cutting tools
- Shaper cutters, gear hobs, skiving tools, shaving cutters, and chamfer/deburr tools are designed and manufactured to your specifications
- Advanced PVD coatings for high speed processing with extended tool life

FHUSA TSA High Precision Gear Cutting Tools

MiniTec
AUTOMATION

- **MiniTec Automation** offers Automation, Assembly and Part Accumulation Solutions
- Design and build conveyors, doors, enclosures, gantries, machine guarding, workplace systems, etc.
- Diverse line of standard and engineered solutions for your next project

spline 

- **Spline Gauges** is the worlds leading manufacturer of Spline Gauges and Master Gears
- Spline plugs, rings, spur and helical master gears and variable gauges

AEROEX

- **AEROEX** - Mist eliminators, nothing escapes!
- Leading edge technology for emission control

KEYTRACING 
ASSETS - ENGINEERING - SERVICE

- **KEYTRACING** provides critical organizational structure in an easy to implement platform
- Efficient, cost effective method for tracking all of your gauge and asset management requirements
- Track calibration status, maintenance records, asset location and more
